Rancho Cordova, California 95670-6114

Site: *East Avenue Tank, Northeast Corner of East Avenue and East 7th Street (aka 705 A Street), Placer County, California 95648*

Subject: *Report of Abandonment of Monitoring Wells*

Dear Mr. Sanders:

On behalf of Steve Art, City of Lincoln (Client), Applied Engineering and Geology, Inc. (AEG) is submitting this letter to report field activities performed for the abandonment of monitoring wells at East Avenue Tank (Site) on October 11 and 12, 2005.

AEG proposed the abandonment of the seven ground water monitoring wells at the Site in *Quarterly Monitoring Report, Fourth Quarter 2004 and Request for Closure*, dated March 4, 2005. In a letter dated March 15, 2005, Paul Sanders directed the Client to abandon the wells.

In accordance with City of Lincoln and Placer County monitoring well abandonment permits and the March 15, 2005 Regional Board letter, AEG was onsite October 11 and 12, 2005 to abandon the seven monitoring wells. Dave Buck of Placer County was onsite October 11, 2005 and October 12, 2005 to inspect abandonment procedures.

Ground water monitoring wells MW-4, MW-5, MW-6, and MW-7 were abandoned on October 11, 2005. Ground water monitoring wells MW-1, MW-2, and MW-3 were abandoned on October 12, 2005.

Approximately one gallon of water was generated during well abandonment. With the approval of the City of Lincoln, water was disposed of into the City sewer system. No water from this or previous investigations remains onsite.

Approximately one cubic yard of soil was generated during the well abandonment and stored in five 55 gallon drums. On November 14, 2005, the soil was removed and properly disposed of by Doulous Environmental. No soil from this or previous investigations remains onsite.

Should you have any questions regarding the content of this letter or require additional information prior to granting the Site No Further Action Required (NFAR), please contact the undersigned at your convenience.

Sincerely,

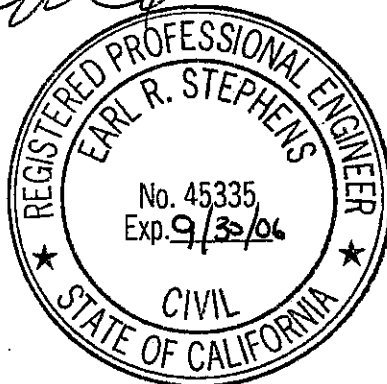

APPLIED ENGINEERING AND GEOLOGY, INC.
